

CD/DVD Duplication

Solid Gold Video can handle all your DVD and CD copies... from 1 to 100,000.

Duplication is for quantities less than 500, or if you need fast turnaround. DVDs and CDs are produced on high quality duplicators, with printing directly on the disc. You can choose from black print or full color. We also offer the new "Watershield" discs where the printing looks just like a photograph, and will not smudge or smear... even when wet.

Replication is for quantities of 1,000 or more. These are stamped DVDs or CDs, with silk screen printing on the disc. Turnaround time for replicated discs is usually 2-3 weeks.

Please see our Mastering page for information on how we can convert your production tape master into a high-quality DVD or audio CD.

Please download our templates for printing on discs and packaging materials here.

We offer CD duplication on standard 5", 3"-mini and Business Card CDs. CD Business Cards are great! They are small, convenient, can contain video footage and are Fun! Everyone has a computer. Put your info on CD Business Cards and hand them out to everyone.

We have lots of packaging ideas to choose from. We can provide you with DVDs or CDs on a spindle, in paper sleeves, inserted into DVD cases with or without full color inserts, cardboard mailers or your own customized packaging.

We offer competitive pricing and fast turnaround. Call us with your duplication needs and find out just how easy it is to get your duplication done with Solid Gold Video. SGV wants to work with you and handle all your duplication needs!
