

Vinyl Records

What? You mean vinyl is coming back? Actually, it never left. DJ's and many audiophiles still want vinyl... and we can make it for you. We can take your CD or tape master and convert it to vinyl records... pressed just as they have been for years. Top quality pressings that will sound great... and last! We handle all aspects of creating your vinyl records... the lacquer, plates and labels... and we press the records right here in South Florida. We can produce as few as 300 of a title. State of the art pressings of 7" or 12" records. Just like rock & roll, vinyl is here to stay.
